Professional Summary

Results-driven Software Engineer and aspiring Product Manager with expertise in the end-to-end lifecycle of AI platforms. Adept at bridging technical execution with user-centric problem solving to build scalable products. Proficient in leveraging data analytics and modern full stack architectures to drive business value and optimize the user experience.

Education

Noida Institute of Engineering and Technology (NIET)

B.Tech in Information Technology | CGPA: 8.15

Ghaziabad, India

2023 – 2027

Previous Education: Class XII: 76% | Class X: 89%

Experience

SAI Advisors

Remote

Virtual Associate Product Manager (APM) Intern

2025

- Analyzed 15+ digital insurance products to identify feature gaps and proposed workflow optimizations, increasing policy management speed by 20%.
- Authored 5+ Product Requirement Documents (PRDs) and streamlined 10+ user journeys, directly aligning business objectives with technical implementation.

HCL Technologies

Remote

Cyber Security Virtual Intern

2026

- Assessed 10+ enterprise system vulnerabilities and recommended comprehensive risk mitigation strategies, reducing potential threat vectors by 25%.
- Implemented 5 security best practices and monitored network defenses to ensure 100% compliance with industry standards.

Flagship Projects

Veilory | *Founder & Product Owner*

veilory.online

- Launched an AI-powered emotional wellness platform, prioritizing 15+ features to deliver a high-impact Minimum Viable Product (MVP).
- Integrated AI semantic search to personalize user journeys, accelerating content discovery speed by 40%.
- Architected a scalable full stack infrastructure utilizing Next.js, FastAPI, and PostgreSQL to support 100+ concurrent users.

Orivan | *Product Owner & Full Stack Developer*

orivan.online

- Developed a structured learning platform indexing 50+ innovator profiles, improving content retrieval precision by 30%.
- Engineered a responsive frontend utilizing React, Next.js, and Tailwind CSS, achieving a 95+ Lighthouse score.
- Formulated a 3-phase product roadmap to integrate an AI recommendation engine and semantic search capabilities.

Skills

Product Management: Product Strategy, Agile Methodology, User Research, A/B Testing, PRDs, Roadmapping, KPI Definition.

Software Engineering: Python, JavaScript, TypeScript, SQL, React, Next.js, Tailwind CSS, FastAPI, PostgreSQL.

AI Tools: Prompt Engineering, Generative AI, LLM Workflows, Git, GitHub, Vercel, Render.

Soft Skills: Cross-Functional Collaboration, Leadership, Problem Solving, Effective Communication.

Certifications

Getting Started with AI on Jetson Nano | **Cyber Security Virtual Internship** – HCL | **Python Internship** – CodSoft | **Full Stack** – Udemy
